

- Some progress.
- But too slow.
- Lots of commitment to improve.
- Still many challenges.
- Science needs dialogue.
- Political environment.
- Lots of commitment to dialogue – prioritize.
- Perception is reality – dialogue beyond perception.
- Searching together, no more blaming each other.
- Don't say it, do it.
- Listening to opposed views opens perspectives.
- Trust has a high cost. Lack of trust even higher.
- Relevance, transparency, independence, humility.
